# CleanOp®

## Hygienic Protective Cover System

CleanOp®	Provides You
Single-use	Added protection against Healthcare Associated infections. (HAI's)
Microtek Cover System	Reduces the time needed to clean the operating table and surrounding areas/items
Covers the whole operating table or stretcher	Optimal mattress protection and increasing life expectancy of equipment
Strong lift sheet	Simple and secure patient transfer
Impervious protection	Keeps the operating table/stretcher clean and offers improved protection against HAI's
Patented Mojave Absorption	Surface remains soft and improves patient comfort

Hygiene improvement is crucial in the fight against Healthcare Associated Infection.

**CleanOp®** is an innovative protective cover system developed by Microtek that helps infection prevention and at the same time increases the life expectancy of expensive equipment.

Microtek **CleanOp®** System consists of multiple single-use components that are designed to protect Operating Tables, Armboards and Headrests from fluid contamination.

By introducing **CleanOp®** as a routine part of operating theatre procedure staff will save time cleaning following surgical interventions and improve not only the quality of care to their patients but also to that of the equipment.

- **Mojave superabsorbent core for quick absorption of fluids**
- **Surface remains dry & soft increasing patient comfort**
- **Impervious back provides protection to mattress & operating table**
